

**Thanks for the memories,
the recognition
and the comradeship.**

*Such a thrill to be
awarded Best in Show for
our booth at GlassBuild
this year!*

What a rush. GlassBuild America may be behind us, but I'm still on cloud nine with the success of this year's event in Atlanta. Not only was I able to catch up on the latest happenings from so many of our customers, but I also enjoyed connecting with some new faces at the annual three-day industry gathering.

We went into GlassBuild on a gust of pride, excitement and nostalgia for Deceuninck's 50th anniversary. We were especially honored to celebrate this golden milestone with some former members of our team who came out of retirement to attend GlassBuild. These retirees added to the sentimental ambience palpable throughout our booth -- even on our show floor, where a timeline of the past half-century's notable events treated visitors to a blast from the past.

From our brand-new replacement system to our 164 and 173 series, our latest offerings were alive, well and on display at GlassBuild this year. Designed to

welcome in the beauty of the outdoors while providing all the comfort and quiet of the indoors, we introduced our [Revolution XL®](#) French door. Talk about unveiling a whole new world of admirers.

Best in Show

After snagging the Best in Show award for our breathtaking booth design, we left GlassBuild giddy with anticipation for the next 50 years. We can't wait for what tomorrow brings -- both for Deceuninck's future leadership in the realms of sustainability, design and innovation and for the ingenious technology our colleagues have yet to dream up.

If you couldn't make it to this year's GlassBuild, feel free to give me a call so that we can catch up on what's new with you.

-Filip

**THANK
YOU!**
