

# Deceuninck listed among the fastest growing companies in Ohio.

We were honored when Deceuninck NA was recognized at the inaugural *Ohio Success Awards* in March. And it couldn't come at a better time as we celebrate our 50th Anniversary in 2019.

Presented by Ohio Business magazine, the Ohio Success Awards honors companies from all sectors, including nonprofits and governmental organizations, which means the mix of companies that are being recognized is an interesting one. They included a defense contractor earning \$90 million a year, a gutter protections company earning nearly \$500 million and a consulting firm earning nearly \$250 million. Deceuninck is listed as earning nearly \$250 million (2017).

But the Ohio Success Awards are not only about revenue. They also focus on companies that have demonstrated hiring growth. And the awards recognize companies that have shown involvement in their communities as well as service to their industry.

And that, in a nutshell, is what Deceuninck is all about. Yes, we're ecstatic to have essentially doubled our revenue from 2011 to 2018. But we're more focused on our commitment to our customers. Not to mention our efforts to advance the fenestration industry even further with our products.

## What is your business doing to grow in all directions?

Are there local award shows you can enter to show off your accomplishments? It's a great exercise that will give you the big picture of how your company is doing.
