Deceuninck Hosts Future Fabricators

Deceuninck North America welcomed more than a dozen fabricators for its Future Fabricators workshop. Current and future leaders of companies from Ohio, West Virginia, Illinois, Indiana, Florida and Pennsylvania attended the event now in its second year.

During the two-day workshop, Deceuninck North America CEO Filip Geeraert and other Deceuninck leadership provided insights into the state of the fenestration industry, including material innovations, new business opportunities in the light commercial space and a roundtable discussion about smart homes.

Motivational speaker and actor Chad Willett encouraged attendees to “Smash the Box” to unleash their creative potentials. Attendees also received an in-depth plant tour at the company’s Monroe, Ohio, headquarters.

“Through our Future Fabricators workshop we are sharing our collective learnings and insights about the future of the fenestration industry,” said Filip Geeraert, president and CEO, Deceuninck North America. “The young leaders attending the event are able to build their network and better understand how Deceuninck North America can help continue growing their businesses. They are also able to provide insight into how they see the industry changing in the future.”
